

# CONVERSATIONS

## *and Dementia*

*Sponsored by The Ganzhorn Suites and  
Schoedinger Funeral and Cremation Service*

*It is never easy to think about what will happen to our loved ones as they age,  
let alone to talk about it. It can be even harder to talk to a loved one about  
end-of-life when they are living with Alzheimer's or dementia.*

- ◆ This program will look at how to start having meaningful conversations with our loved ones, focusing on long-term memories and legacy work.
- ◆ We will also examine a specialized tool-kit that narrows down the more deeper questions that put your loved ones end-of-life care wishes to paper, along with other documents and forms that help families when it comes time to make difficult decisions.
- ◆ Finally we will discuss the value and importance of advance funeral planning when assisting a loved one with Alzheimer's or dementia.

### **Special Guest Speakers:**
